SUBJECT: TRANSMITTAL OF OPERATIONS AND MAINTENANCE PLAN FOR THE
FINAL SELECTED REMEDIES AT CENTRAL FACILITIES AREAS, OPERABLE UNIT 4-
13 (EM-ER-04-097)

Dear Mr. Ceto & Mr. Koch:

*Copies of Operations and Maintenance Plan for the Final Selected Remedies at Central
Facilities Areas, Operable Unit 4-13 (DOE/ID-10931, Revision 1) are enclosed for your review.*

This plan describes the operations and maintenance activities to be conducted annually at Waste Area Group (WAG) 4 during the post-remedial phase to ensure that the completed remedies remain protective of human health and the environment. This revision reflects the transfer of institutional controls inspections from the previous WAG 4 Operations and Maintenance Plan to an Idaho National Engineering and Environmental Laboratory-wide institutional controls plan.

If you have any questions or need further information please contact me at 208-526-4049.

Sincerely,
